

Scott Clark

3210 Robious Crossing Drive, Midlothian, VA 23113
804 687 4805 • scottclark591@gmail.com

Objective

To obtain a position at a web development company that specializes in functional and dynamic web programming in order to further my understanding of and skills for utilizing frameworks, managing databases, practicing user-friendly design, and working in a team-driven environment.

Education

The College of William & Mary

Bachelor of Arts

Aug 2009 - Jan 2013

Williamsburg, VA

Major: Government

Minor: Computer Science

Relevant Coursework

Data Structures

Algorithms

Database Systems

Web Design

Software Development

Discrete Structures

Experience

Kinloch Golf Club

Caddie

Manakin-Sabot, VA

Summer 2011

- Developed strong social skills through regular interactions with members, managers, and other caddies
- Realized new techniques and strategy for managing relationships with clients through one-on-one interfacing with both club members and their guests

Great Seasons Bistro

Waiter/Server

Midlothian, VA

Summer 2010

- Practiced strict time management to provide excellent and expeditious service to customers while also fulfilling additional duties
- Built friendly connections with regular diners, waiters working similar shifts, the cooking staff, and the upper management

Interests & Personal Projects

Coding

<http://www.github.com/clarkbarz>

- I started off writing Python in college but soon moved on to completing projects in Java, HTML/CSS, and C++. More recently, I introduced myself to Ruby and Javascript.
- Projects have included building a personal static-page blog in addition to completing goal-driven tutorials available online.

Outdoors & Travel

Everywhere

- Whether it's hiking, biking, swimming, or skiing, I love being outside all seasons of the year.
- I've only been to China and 3/5 of the US, but the world's big, and I want to see it all.

Miscellaneous

- Ask me about: **music** - disco|electronic|alternative|country, **gaming** - SC2|Steam|Catan, **film** - sci-fi|score|all, **news** - tech|hacker|world|politics
